Postponement of the 10th IOC Course on Cardiovascular Evaluation of Olympic Athletes

To speakers, delegates and guests,

As you know, the global pandemic of the Coronavirus is impacting the Medical Community who is facing an unprecedented time.

During the last period, our usual way of working and travelling have been altered due to the COVID-19 epidemic restrictions. With respect and consideration to the hard work and commitment of all the persons involved in the Course and to preserve the highest quality of the scientific contents, the Organising and Scientific Committees have taken the decision to postpone the 10th IOC Course on Cardiovascular Evaluation of Olympic Athletes until next year.

The hosting city is unchanged, the Course will still take place in **Budapest** at the Hilton Budapest hotel and the new dates are **22 - 23 April 2021**.

More information will follow via direct email to all delegates and speakers, as well as on the conference website as soon as available.

Many thanks for your understanding and look forward to seeing you all in April 2021 in Budapest.

Yours sincerely,

Richard Budgett MD, OBE
IOC Medical & Scientific
Director

Lars Engebretsen, MD PhD
IOC Medical & Scientific
Department
Head of Scientific Activities

Antonio Pelliccia, MD, Prof
Course Director
