Postponement of the 10th IOC Course on Cardiovascular Evaluation of Olympic Athletes

Dear Speakers, Delegates and Guests,

We hope you and your families are doing well.

Given the current situation of the COVID-19 pandemic, the Organising and Scientific Committees had to replan the 10th IOC Course on Cardiovascular Evaluation of Olympic Athletes, originally rescheduled to take place in Budapest, Hungary, from 22 to 23 April 2021.

We have found a date later this year, but this means we had to change the host city. The Course will now take place from 4 to 5 November 2021 in Istanbul, Turkey.

More information will follow via direct email to all delegates and speakers, and on the conference website as soon as available.

Many thanks for your understanding, and we look forward to seeing you all in Istanbul in November.

Yours sincerely,

Richard Budgett MD, OBE
IOC Medical & Scientific
Director

Lars Engebretsen, MD PhD
IOC Medical & Scientific
Department Head of
Scientific Activities

Antonio Pelliccia, MD, Prof
Course Director
